Common Powers of Superheroes

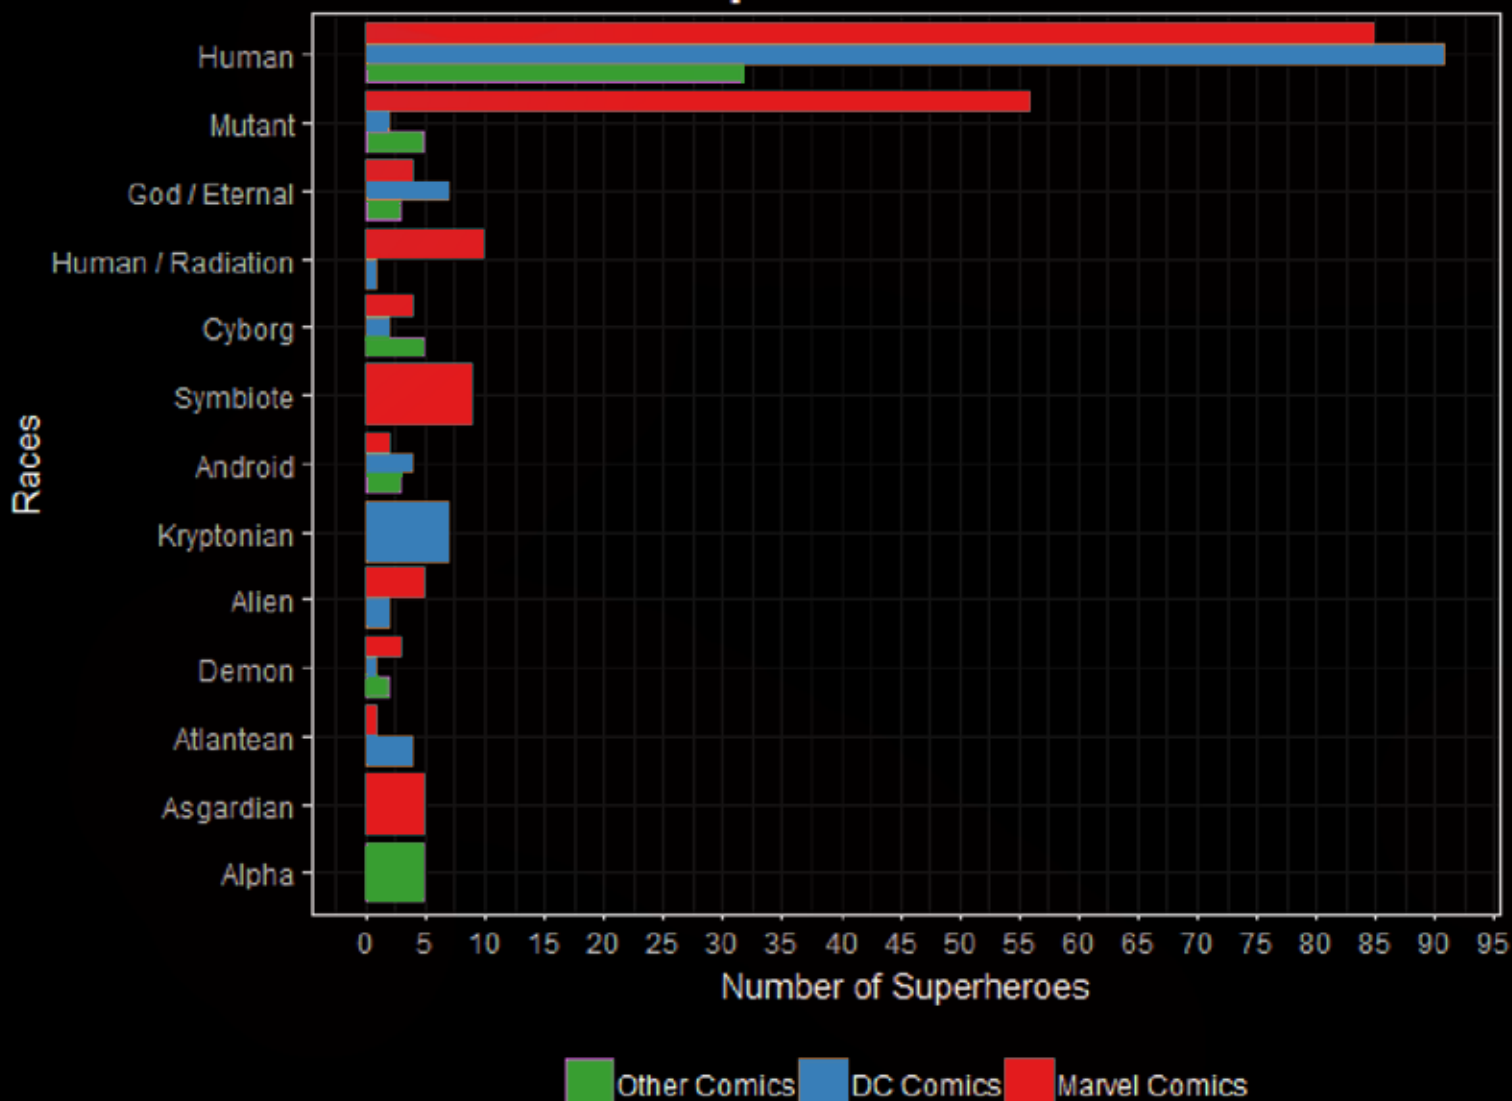

The time has come to settle the eternal dispute. Marvel's team of superheroes will fight against the DC team. The result of this battle will affect the future of the whole world ...

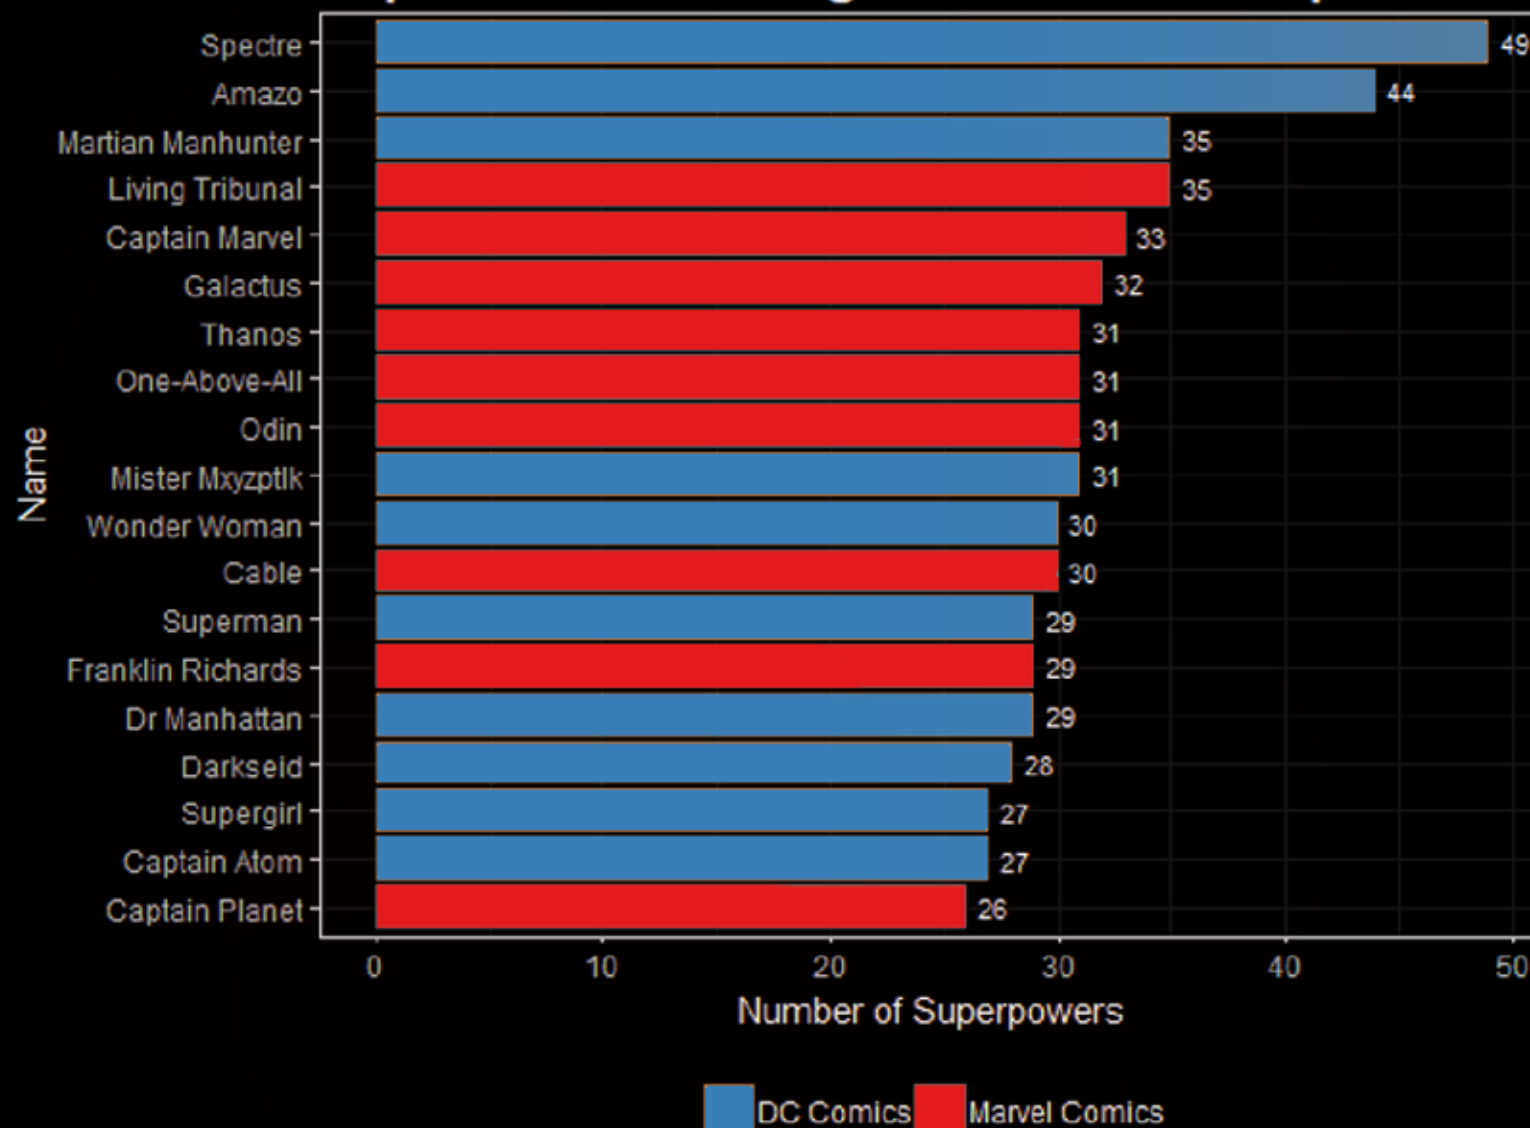

We decided to check which team is more likely to win the battle, for this purpose we looked at the profiles of the superheroes from both teams, and then we made several charts comparing the teams. We combined super powers and heroes races.

Both Marvel and DC teams are extremely strong and confident. However, in our opinion the favorite of this battle is Marvel.
